

OEM – Ford QUIZ

Please answer the following multiple-choice questions. The intent of this quiz is to prove to yourself (and perhaps others!) that you understand Ford's requirements. Please take this time to test your knowledge and send us your answers. We appreciate, and thank you in advance for your feedback.

Question 1:

Select the topic(s) listed below that Ford addresses in their OEM Specific Information guidance documentation.

- a) IMDS Process
- b) Top Reasons for Rejecting Data Submissions
- c) CAMDS Requirement
- d) IMDS Reporting Requirements

Question 2:

IMDS datasheets are processed via Ford's GMM in-house system. Suppliers can expect their datasheets to be processed in up to how many hours/weeks?

- a) Up to one week
- b) 48 hours
- c) 24 hours
- d) 72 hours

Question 3:

Ford enters data quality checks into their GMM in-house system. Additional data quality check integration will be based on which of the following? (select only one)

- a) Polymeric Parts Marking
- b) Those that follow Recommendation 001
- c) Checks that are specific to substance ranges
- d) Incorrect use of Semi-Components

Question 4:

What is the primary driver(s) for Ford's requirement to CAMDS reporting?

- a) China "10-Rings" Certification
- b) Physical Test Requirements
- c) CCC Certification
- d) Joint Ventures

DISCLAIMER: As OEM requirements frequently change, Tetra Tech cannot guarantee this information to be complete nor accurate. Check OEM guidance for official answers to all questions.

Question 5:

Select what item(s) are included in the Restricted Substance Management Standard (RSMS) package?

- a) Reporting Requirements for Production Parts
- b) Certification Requirements
- c) ELV Annex II Expiration Dates
- d) Substances being considered for prohibition
- e) None of the above
- f) All the above
