

OEM – GM QUIZ

Please answer the following multiple-choice questions. The intent of this quiz is to prove to yourself (and perhaps others!) that you understand GM's requirements. Please take this time to test your knowledge and send us your answers. We appreciate, and thank you in advance for your feedback.

Question 1:

Select the topic(s) listed below that GM addresses in their OEM Specific Information guidance documentation.

- a) GM's IMDS In-House Process
- b) Reference to the GMW3059
- c) CAMDS Requirement
- d) IMDS Reporting Requirements

Question 2:

IMDS datasheet approval is required for PPAP. GM requires IMDS datasheet submissions be completed, at a minimum, of how far in advance of a suppliers PPAP due date?

- a) One week
- b) Two weeks
- c) One month
- d) 72 hours

Question 3:

GM enters data quality checks into their in-house system. Additional data quality check integration will be based on which of the following? (select only one)

- a) Polymeric Parts Marking
- b) Those that follow Recommendation 001
- c) Checks that are specific to substance ranges
- d) Incorrect use of Semi-Components

Question 4:

What is the primary driver(s) for GM's requirement to CAMDS reporting?

- a) China's New Requirement for All Imported Automotive Products
- b) Test Requirements for Product Sold in China
- c) Required due to Shanghai GM Production Facility
- d) Joint Ventures

Question 5:

Select the item(s) that is included in GM's IMDS Instruction Manual?

- a) Reporting Requirements for Production Parts
- b) Submission Requirements for Non-Standard Materials
- c) ELV Annex II Expiration Dates
- d) Reference to the "GM IMDS Checklist"
- e) None of the above
- f) All the above
